EXPERIENCE

Amazon **Boston, MA**
Senior UX Designer **Jan 2025 - July 2026**
- **Led end-to-end product and design for Amazon's global internal onboarding platform for 4M employees**
  - Rescoped and reprioritized the features of Manager Hub Pre-start, a manager tool to track team members' onboarding status, by mapping the user journey and matching upstream recruiting platform integration, cutting the feature requirements by 50% and saving 4+ sprints of eng work.
  - Initiated the platform's first user research where customer insight was historically missing; ran 10 1:1 card sortings and surfaced a conflict between employee mental models and EDI compliance.
  - Shipped the new-hire data collection and self-service data management based on research findings, reducing the drop-off rate by 15% and completion time by 20%.

Sonos **Boston, MA**
Senior UX Designer **May 2023 - Dec 2024**
- **Created music experiences, integrating hardware, software, and voice, for 15M+ households globally**
  - Designed and ran a cross-functional workshop, setting Sonos' standard for partner feature requests and converting one-off builds for one music partner into one universal feature for all Sonos users across 150+ service providers.
  - Defined product strategy and requirements for Autoplay feature (if it continues and what plays next when a queue ends), creating product positioning differentiating Sonos vs. Apple Music and Spotify.
- **Led the Sonos–Lutron B2B partnership initiative as PM (20%+ of partner-channel revenue share)**
  - Stepped in when product leadership was missing; defined product requirements, built the delivery roadmap, and shipped the cross-device integration guidelines adopted by design and partner teams for international launch.

Daily Harvest **New York City, NY**
Lead Digital Product Designer (remote) **Nov 2020 - Mar 2023**
- **Launched the first Loyalty Program across app and web with 7+ teams, increasing ordering rate by 26% and in-app engagement by 42%**
  - Pitched and won approval from C-level leadership with a reward model(in Loyalty Program) that tied incentives to healthy-eating habit behavior, reinforcing the company's nutrition mission and establishing unique product positioning against peer competitors.
  - Initiated the digital team's "Customer Chats" program, where PM and engineers sat with and talked to customers, understanding first hand their health goals and eating habits and building customer empathy.

TripAdvisor **Boston, MA**
UX/UI Designer **May 2019 - Nov 2020**
- **Shipped Hotels app and web experiences used by 400M+ monthly travelers across 190 countries**
  - Designed the front-end user flow and back-end result logic for a dialogue-driven and MML-powered hotel search and recommendation experience, increasing hotel booking engagement and conversion.
  - Defined A/B test variants with the PM and shipped the data-backed winner.

Designco **New York City, NY**
Designer, Wayfinding Experience **July 2017 - Aug 2018**
- Full-cycle designer in a 3-person startup, managing client meetings, design development, vendor coordination, and on-site installation across Moxy Hotel, Marriott Lounge to luxury resident building projects.

Additional

- Tech stack - Claude Code, Google AI Studio, Figma, Jira, Confluence, Notion, UserTesting.
